Nomination # 87 376
A. H. H. H. 9-23-86
Regional Supervisor Date
OK S. S. S. 11/20/86
FI 11/20
Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
AC	August 18-19		X	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Juvenile char were observed in a pool near Glacier Creek Road on 8-18-86 and 3 juvenile char were captured in minnow buckets 8-19-86 by A. Townsend and R. Shidelex below and above Glacier Creek Road. This extends previously documented range in Anvil Creek and adds char as anadromous species.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) Alan H. Townsend, HB III
